

# TIPCO INC. CAPABILITY STATEMENT

Precision Manufacturing | Custom Tooling | Engineered Solutions

## COMPANY OVERVIEW

Founded in 1959, Tipco is a global precision manufacturing company headquartered in Ontario, Canada. With over 65 years of operational excellence, Tipco manufactures high-precision tooling and custom machined components for mission-critical applications across defence, aerospace, automotive, medical, pharmaceutical, automation, and other sectors. Tipco operates manufacturing facilities in Canada, the USA, and the UK. Tipco serves customers ranging from SMEs to Fortune 500 corporations.

## CORE MANUFACTURING CAPABILITIES

- CNC Turning – Multi-axis precision CNC lathes
- CNC Milling – 5-axis milling for tight-tolerance components
- CNC Shape Grinding – High-precision 5-axis shape grinding
- Centerless Grinding – Tight tolerance cylindrical grinding
- Surface Grinding – Precision fixture surface grinding
- Wire EDM – Complex profile cutting to exacting tolerances
- Jig Grinding – High-precision CNC jig grinding
- Quality Control – CMM, Image Dimension Measurement System
- Heat Treatment – Vacuum furnaces (on-site)
- PVD Coatings – Enhanced wear and performance

## PRODUCTS & APPLICATIONS

- Precision machined components
- Standard & custom punch tooling (punches; buttons; retainers)
- Standard & custom marking stamps (and retainers)
- Fine blanking precision tooling
- Hydroform precision tooling

## KEY DIFFERENTIATORS

- 65+ years of precision manufacturing experience
- Privately owned and operated
- Vertically integrated: machining, heat treatment, QC
- Global footprint: facilities in Canada, USA, and UK
- Application engineering support (in-house customer support)
- Supply chain risk mitigation for critical tooling requirements

## INDUSTRIES SERVED

Automotive (OEM; Tier 1; Tier 2)

Aerospace

Automation; Material Handling

Building Materials (i.e. HVAC)

Consumer Goods (i.e. Appliances)

Defence

Medical; Pharmaceutical

## CERTIFICATIONS & QUALITY

### ISO 9001:2015

Tipco maintains a certified Quality Management System that includes well-documented processes and procedures focused on value creation and risk mitigation strategies.

## MATERIALS EXPERTISE

HSS (M2, PM M4), A2, D2, O1, S390, Vanadis 4E, aluminum, brass, copper. Material consulting for optimized tool life and performance. PVD Coatings.

## COMPANY DATA

<b>Founded</b>	1959
<b>HQ</b>	Canada
<b>Facilities</b>	Canada, USA, UK
<b>NAICS</b>	33351
<b>NCAGE</b>	L12H9
<b>DUNS</b>	201458346, 614371086
